My background including media, branding and print management founding the charities and housing association division at our firm Centurion Press (CPL). Helping to raise and save millions of pounds, charity fundraising and general sales experience provided me transferable skills in corporate funding and procurement strategy. We sold Centurion in 2002 successfully to a PLC for £42m. I previously introduced KISS FM to CPL in 1990, whom invested in and sold at a return, assisting us through turbulent times being able to exit successfully. At 19 years old, I previously launched a pirate radio station, Playback Radio, committed to good causes.

Proud of my family's London and Yorkshire working class roots, aside of business I was honoured to have organised the sponsorship for President Mandela's visit to the UK shortly after his release from prison. My great uncle was a 1920's famous Boxer, my other uncle guarded Deputy Führer Rudolf Hess whilst imprisoned WW2. Finally, I had the pleasure of Go-Karting with HRH Princess Diana amongst other great experiences.
